Basic informationDescriptionOrder, delivery and payment

### Where to buy Hivus-LR (Lopinavir 200 mg + Ritonavir 50 mg)?

Hivus-LR, an Indian drug for the treatment of HIV of the first and second types, is recommended for the treatment and prevention of mild stages of coronavirus. The drug has a powerful antiviral effect and is approved for use by doctors around the world. You can buy Hivus-LR inexpensively from the pharmaceutical company Aurobindo Pharma Limited at the pharmacy. For use, a doctor's recommendation is required.

### Hivus-LR Price

The Indian drug Hivus-LR in composition and effectiveness is fully consistent with the original drug - Kaletra, developed by the German pharmacological company Abbott. The manufacturing license to the Indian company was transferred due to expiration, which allowed the generic manufacturer to release a drug containing lopinavir and ritanovir that is available to many patients around the world. Hivus-LR is certified and manufactured under the supervision of WHO and the company of the copyright holder. The low price of the drug in the pharmacy is ensured by direct supply of the drug from India, from the manufacturer's warehouses.

### Reviews of Hivus-LR tablets (lopinavir 200 mg + ritonavir 50 mg)

In the course of research on the active agents of the drug, scientists have identified a highly effective effect of lopinavir on the viral cell protein responsible for replication. Ritonavir is responsible for the maximum concentration and time of lopinavir in the blood, which is the therapeutic effect of the drug Hivus-LR. Reviews of the drug note the speed of action and minimal toxicity.

## Description Hivus-LR

Hivus-LR are film-coated tablets containing 200 milligrams of lopinavir and 50 milligrams of ritonavir each. The package contains 60 pills, placed in a polymer bottle with brand marks.

## Hivus-LR Applications

The medicine is used in accordance with the diagnosed disease and in the dosage prescribed by the attending physician. Most often, a single dose of the drug is used at the same time of the day. To change the schedule and dose of admission, you must consult with your oncologist.

## Contraindications Hivus-LR

Hivus-LR is not prescribed for children under 3 years of age, pregnant and lactating patients, people with allergies to drug components, as well as patients with irreversible liver and kidney problems.
