Where to Buy Sutinat 12.5 mg

Sutinat 12.5 was created by the Indian pharmaceutical company Natco Pharma Limited. The antineoplastic drug modern doctors prescribe to their patients in order to treat gastrointestinal stromal tumors and renal cell carcinoma and many other types of cancer tumors. Sutinat 12.5 can stop the growth of any tumors or have an effect during regression. The drug is available to order at any time of the day. Ordering Sutinat 12.5 medication is done in one click. But first of all, you need to see a doctor who monitors the course of your therapy. After the drug is approved for use, you can order it on the website.

Generic prices

Sutinat 12.5 contains the active substance sunitinib, which plays a major role in blocking the growth of tumors in the patient's body. Sunitinib also affects pathogenic cells and prevents them from multiplying in the future. The original drug was developed on the same active substance. From this it follows that the action of both drugs is equivalent. Nevertheless, the cost of a generic is known to be significantly cheaper. Therefore, it will be very beneficial for you to buy Sutinat 12.5 mg on the portal today. Each medication we sell has all the necessary documents and certificates.

Active substance Sunitinib

Sunitinib is a potent anticancer agent. He can substitute for imatinib if it does not carry a positive result. Studies have shown that the active substance does not harm the kidneys and liver and allows patients with renal or hepatic insufficiency to be treated. There are a number of side effects associated with sunitinib treatment: nausea; vomit; anemia; allergic skin rashes; pain in the arms and legs; sleep disturbance; insomnia; fatigue; memory loss; stomatitis, as well as others. Reactions are usually temporary. But if they do not go away, you need to go for a consultation with your doctor, who will be able to eliminate them.

Description

Sutinat 12.5 mg is in an original cardboard box with the manufacturer's logo. One box contains 28 hard capsules. One capsule contains the active ingredient sunitinib.

Indication Sutinat 12.5 mg
