Where to buy Resolax

The Bangladeshi drug Resolax is produced by a well-known Indian company - Everest. This medicine is an innovative generic. Which is meant to treat chronic constipation in adults. The drug will be effective and irreplaceable when laxatives cannot help the patient. You can buy medicine from us, because it will be reliable and not expensive at all. But it is worth first of all to consult a doctor who will be able to monitor the course of your treatment in the future.

Prices for the drug Resolax

Today, it will not be new that all generics are much cheaper than their original drugs. Therefore, you can buy Resolax at the most affordable cost. All this is due to the fact that you do not overpay for expensive brands. The preparations contain the same active ingredient - prucaloprid, which can very quickly act on the problem of chronic constipation. Resolax, like all others, is delivered to us directly by original drug suppliers. Therefore, here you will never encounter price hikes. Our portal sells exclusively certified drugs.

Active substance Prucaloprid

Prucaloprid is used to treat adults with chronic constipation. Especially when other laxatives cannot help. Studies have shown that the active substance practically does not interact with any other substances entering the body (oral contraceptives, alcohol, paroxetine, etc.). While taking prucaloprid, side effects may occur: headache, abdominal pain, nausea, diarrhea. Such effects can occur only at the beginning of treatment and disappear in just a few days. Moreover, they are only of mild and moderate strength.

Description

Resolax contains 30 solid film-coated tablets in the package. Each contains 1 mg of the active substance prucaloprid and other components.

Indications of Prucaloprid

Resolax is prescribed by a doctor if he sees a need for it. The drug is necessary for adults with chronic constipation if other laxatives do not help. The dosage should be discussed at the doctor's appointment, because it can be adjusted.

Contraindications

The drug Resolax is strictly forbidden to be taken by people who are hypersensitive to one of the substances from the composition of the drug and people who have impaired renal function and need dialysis.

How to order Resolax?

Despite the fact that today on the Internet you can find many offers for the purchase of generics like Resolax. Only in the Pharmacy can you make an order safely and inexpensively. You won't pay for an expensive brand by ordering an innovative generic. In addition, with a convenient catalog, the drug can be found in a matter of seconds and quickly place an order.

Delivery

We will be able to deliver the Indian drug Resolax throughout the Russian Federation. In some cities, it is possible to arrange courier delivery so that the medicine can be brought directly to your home. To clarify the weight of the details, write to our consultants from the support service.

Payment

You can independently choose which payment method suits best. We can only advise you that you choose 100% prepayment. Such payment will be the most reliable and practical among all others, because you will significantly save your time. If you have any questions - write to the support chat.
