Where to buy Ritocom (Lopinavir 200 mg + Ritonavir 50 mg)?

Ritocom, an Indian drug for the treatment of HIV of the first and second types, is recommended for the treatment and prevention of mild stages of coronavirus. The drug has a powerful antiviral effect and is approved for use by doctors around the world. You can buy Ritocom inexpensively from the pharmaceutical company Hetero Labs Ltd at a pharmacy. For use, a doctor's recommendation is required.

Ritocom tablets price

The composition and effectiveness of the Indian drug Ritocom fully corresponds to the original drug - Kaletra, developed by the German pharmacological company Abbott. The manufacturing license to the Indian company Hetero Labs Ltd was transferred to WHO due to expiration, which allowed the generic manufacturer to release a drug containing lopinavir and ritanovir that is available to many patients around the world. Ritocom is certified and manufactured under the supervision of WHO and the copyright company. The low price of the drug in the pharmacy is ensured by direct supply of the drug from India, from the warehouses of Hetero Labs Ltd.

Reviews of Ritocom tablets (lopinavir 200 mg + ritonavir 50 mg)

In the course of research on the active agents of the drug, scientists have identified a highly effective effect of lopinavir on the viral cell protein responsible for replication. Ritonavir is responsible for the maximum concentration and time of lopinavir in the blood, which is the therapeutic effect of the drug Ritocom. Reviews of the drug note the speed of action and minimal toxicity.

Description of Ritocom
